Food Industries

GENERAL ALPHABETICAL INDEX

Volume 11

JANUARY, 1939 TO DECEMBER, 1939

January	**1- 60**
February	**61-118**
March	**119-182**
April	**183-242**
May	**243-302**
June	**303-364**
July	**365-424**
August	**425-478**
September	**479-538**
October	**539-602**
November	**603-664**
December	**665-734**

A

Absorber for air lines (e)..... 653
Accidents and accident prevention:
More safety needed in steam jacketed kettles. G. H. Tay..... 67
Acetylene ripens fruit (N) **343**

ADVERTISING:
Co-operative advertising expenditures for food products (table)..... 450
Federal Trade Commission issues statement on misleading advertisements..... 87
Women's magazines as an influence on sales 30, 84
Agitator drive (e).....***468**

AGRICULTURE:
Farmer relations need more cultivation (ed) 667
Food surplus plan for relief distribution....212; .....(N) 222
Little fellow is hit (ed)..... 541
U. S. Department of Agriculture planning four new Regional Research Laboratories.***264**
Air conditioning:
Air conditioning refrigerating machine (e).. 713
Smoking fish improved by air conditioning.***490**
Warehouse costs lowered and quality of nuts bettered by air conditioning system..... ***70**
Air heater (e) 713
Air filter for air conditioning systems (e).. **413**
Air scrubber (e) ***652**
Alcohol from dates (A)..... **300**
American Assn. of Cereal Chemists & American Society of Brewing Chemists meet (N) **341**
American Bakers' Assn.:
Chicago meeting (N)..... 164
New York meeting (N)..... 642
Wholesale Cake Bakers' Division meets (N) 165
American Bottlers of Carbonated Beverages:
San Francisco meeting (N)..... 716
American Chemical Society:
Baltimore meeting (N)..... 283
Meeting (N)..... 569
American Grocery Manufacturers of America:
Parade of Progress for promotion..... 33
American Institute of Refrigeration announces research program (N)..... **344**
American Meat Packers:
Convention in Chicago (N)..... 643
American Society of Baking Engineers:
Chicago meeting (N).....***221**
American Soc. of Brewing Chemists & American Assn. of Cereal Chemists meet (N) **341**
American Society of Refrigerating Engineers:
Austin, Tex. meeting (N)..... 285
New York meeting (N)..... 45
Associated Coffee Industries meeting (N).. **569**
Associated Grocery Manufacturers:
Meeting (N)..... 340
New York meeting (N)..... 714
Public relations program (N)..... 102
Awards:
AGMA award to Dr. McCollum (N)..... ***45**
Dr. Mary Rose received award from AGM for bar services in nutrition (N)..... 714
Packaging awards.....***208**

B

BACTERIA:
Examination of old cans of food (A)..... 92
Horse-radish vapors prevent bacterial growth (A) 277
Laboratory unit for bacteriological control work (e).....162
Lightly smoked fish spoilage (A)..... 237
Microflora in candy and jam (A)..... 639
Micro-organisms on apples affect cider quality (A)..... 473
Mold counts in butter (A)..... 475
New kind of food poisoning (A)..... 535
Preventing moldy butter by treating wrappers (A)..... 511
What to do to prevent spoilage by contamination. J. E. Hanaché.....***198**

BAKERIES AND BAKING:
A.S.B.E. reports research findings (N)..... 221
Baking quality of flour improved (P)..... 639
Cake cutter.....***449**
Caraway seeds cleaned by centrifuge (N).. 518
Choosing sweetening agents in food manufacture. R. S. McBride..... 614
Christmas bouquet fruit cake formula..... 532
Codfish flour in baking (P)..... 534
Crushed pineapple or pineapple topping formula 660
Devils food cake made with lard formula... 660
Drake's attractive trucks build bread and cake business ***682**
Dry blend cake mix for reduced operating expenses formula..... 584
Fast and slow dough mixing (A)..... 339
Fermentation tolerance devined (A)..... 400
Flour consumption figures show trend to bakeries. E. G. Montgomery (charts).... 266
Frost damaged grain (A)..... 728
Frozen bread. W. H. Cathart pt 1 ***68**; pt 2.***200**
Fudge cake icing powdered ready to mix..***451**
Maltose production (P)..... 729
Medium rich basic sweet dough formula.... 712
Milk protein in baking (A)..... 339
Mincemeat formula..... 532
New York World's Fair demonstrates baking bread and cake.....***608**
New York World's Fair demonstrates pie baking ***611**
Oven for small bakeries (e).....***525**
Photo-record camera for bread and cake scoring ***96**
Prepared doughnut flour formula..... 641
Prepared pancake flour formula (blent type).. 712
Quality control. T. H. Butterworth.....***684**
Quality control in food manufacturing. W. L. Campbell pt 1 ***483**; pt 2.....***546**
Refrigeration will improve baking profits. W. E. Broeg pt 1 ***385**; pt 2.....***434**
Roll divider and rounder (e).....***161**
Russian official inquires about the baking industry in New York City (ed)..... 604
Temperature attained in baking products (A) 277
Water content of doughs (A)..... 339
White cake made with lard formula..... 731
Bakeries and baking.. See also Bread
Baking powder, noncaking (P)..... **659**
Barrels for frozen foods.....***128**
Beater, rubber edged (e)..... 712

BEER:
Active carbons in the beverage industry (A) 160
Action of proteins in beer (A)..... 472
Beer and jelly—same methods (ed)..... 186
Beer made from wort cooked under pressure (P) 510
Light's effect on beer (A)..... 216
Metering makes money. W. G. Wolf..... ***6**
Pasteurizing beer (A)..... 564
Production of beer in 1938 (N)..... 106
Removal of bitter sediment in closed fermenter (P)..... 358
Sales of bottled and canned beer..... 33
Unit and shipping container redesigned for beer ***337**
Beer. See also Brewing
Belt slip. W. F. Schaphorst..... **97**
Belts prepared for lacing..... 281
Benzoate of soda solution formula..... **585**

BEVERAGES:
Active carbons in the beverage industry (A) 160
Birch beer extract formula..... 585
Birch beer sirup formula..... 585
Choosing sweetening agents in food manufacture. R. S. McBride..... 614
Cider quality affected by micro-organisms on apples (A)..... 473
Crushed pineapple or pineapple topping formula 660
Dextro-milk formula. Corbett & Tracy.... 513
Food Administration rules on labeling on present bottles (N)..... 340
Fruit acid formula..... 660
"Grenay" champagne-like beverage.....***504**
Lemonade powder (P)..... 510
Malted milk, chocolate flavored, prepared with raw sugar..... ***35**
Metering makes money. W. G. Wolf..... ***6**
National Bottled Carbonated Beverage Week (N) 343
New York World's Fair demonstrates Coca-Cola bottling.....***610**
Pineapple sirup formula..... 661
Prune juice manufactured from dried prunes. W. C. Hoffman.....***432**
Solid lactic acid (P)..... 39
Soluble colloids on food liquids (A)..... 91
Sparkoffee Jr.....***451**
Sterilization of water for beverages (A).... 472
Sugarless beverages (P)..... 240
Syphon water (A) 711
What is satisfactory carbonation? J. M. Sharf 261
Bigelow, W. D. (ed)..... **186**
Biscuit & Cracker Manufacturers Assn. and Independent Biscuit Manufacturers Co. meet (N) **343**
Bleaching:
Concentrated fruit and vegetable products. Gerritz & St John.....***369**
Flour bleaching (P)..... 400
Boilers: Gas boiler speeds preserve making.. **97**

BOOK REVIEWS:
ABCB plant operation manual..... 662
American standard code for mechanical refrigeration 732
American woman's cook book ed by Ruth Berolzheimer 241
Annual meat packers' guide..... 586
Annual review of big chemistry. J. M. Luck 733
Are you a violator?..... 586
Baking powders. Simon Mendelsohn..... 662
Beverage manufacture. R. H. Morgan..... 58
Canned food reference manual..... 537
Casein and its industrial application, ed by Sutermeister & Browne..... 364
Commercial fruit and vegetable products. W. V. Cruess..... 423
Consumers market data handbook..... 537

* Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (F) Forum. (P) Patents. (N) News.

Containers for fruits and vegetablees. L.C. Carey 537
Correlations between annual precipitation and the yield of spring wheat in the Great Plains. J. S. Cole..... 364
Dictionary of food and nutrition. Graves & Taber..... 364
Does distribution cost too much. Stewart & Dewhurst 663
Durum wheats and their utilization. C. I. Alsberg 538
Engineering data and prices..... 423
Equipment standards..... 241
Fan engineering, ed by R. D. Madison..... 181
Federal food, drug and cosmetic act. C. W. Dunn 422
Federal Food, Drug and Cosmetic Act and general regulations for its enforcement.. 733
Federal tax law with explanatory digest; revenue act of 1938..... 181
First annual blue book edition of National Carbonator and Bottler, ed A. S. Loyless. 477
Food control—its public health aspects. J. H. Shrader 733
Food industrial manual, ed by Cronshaw & Lacey 117
Food industries catalog and directory..... 57
Food tables. Mottram & Radloff..... 117
Food; production, marketing, consumption. J. J. Stewart..... 662
Fruit canners of the world. C. E. Birgfeld. 586
Fruit and vegetable juices. D. K. Tressler & others..... 477
German fat plan and its economic setting. Karl Brandt..... 241
Good food and how to cook it. P. K. Newill 423
Guinea pigs and bug bears. G. L. Eskew.. 58
Handbook of the federal food, drug and cosmetic act and enforcement regulations.... 477
Index to literature of food investigation, comp by Agnes Glennie..... 477
Index to the literature of food investigation 58
Industrial architecture of Albert Kahn. George Nelson..... 301
Industrial market data handbook of the U. S. O. C. Holleran 732
Introduction to industrial mycology. George Smith 301
Irradiation of milk. Weekel & Jackson.... 732
Management of dairy plants. M. Mortensen 422
Manual of sugar companies..... 732
Market diseases of fruits and vegetables. G. B. Ramsey and others..... 117
Mathews conveyors..... 423
Microbiology in the preservation of the hen's egg 537
Municipal milk distribution in Tarbor, N. C. Nixon & Reed..... 477
Operating results of consumer cooperatives in the U. S. in 1937. C. N. Schmalz..... 477
Pests of grain..... 538
Pickle and and sauce making. R. H. Binsted 586
Plant chemiculture. Dawson & Dorn..... 537
Price control under fair trade legislation. E. T. Grether 733
Problems under informative labeling. T. S. Blanchard & others 733
Processes for non-acid canned foods in metal containers 586
Protective coatings for metals. Burns & Schuh 538
Public and industrial relations in production 662
Rancidity in edible fats. C. H. Lea..... 117
Recent developments in packaging progress. H. J. Higdon 732
Reference book of the meat packing industry 117
Refrigerating data book..... 181
Respiratory enzymes..... 538
Second train agreement between U. S. and Canada 364
Sugar economics, statistics and documents. Myer Lynsky..... 117
Suggested outline for specifications for purchasing canned fruits and vegetables. Paul Williams 117
Symposium on unit costs..... 663
Tests for color-blindness. S. Ishihara..... 422
Trade associations in law and business. B. S. Kirsh..... 241
Utilization of fats. H. K. Dean..... 117
Wheeler-Lea Act. C. W. Dunn..... 423

BOTTLES:

Bottle carrier.....*449
Bottle corker (e).....351
Bottle washer (e).....*467
English bottle washing problems (A)..... 400
Massachusetts firm irradiates bottle hoods (N) *568
Milk bottles cracking during washing (A). 38
New paper milk bottle machine.....*560
Sanitary milk bottle neck finishes and closures (A)..... 160
Ways to wash bottles clean at low cost. Arnold & Levine..... 235
Wine bottle wins packaging award.....*208

Bottling:

Distilling plant arranged in six parallel bottling lines for efficient packaging. W. F. Hovey.....*493
New York World's Fair demonstrates Coca-Cola bottling.....*610
Box—Wooden, for frozen foods.....*128
Folding, for frozen foods.....*130

BREAD:

Advertising to promote bread by American Institute of Baking (N)..... 165
Apple bread.....*213
Ascorbic acid vs. bromates (A)..... 711
Baking temperatures (A)..... 277
Camera for bread and cake scoring..... *96
Dough and better loaves (A)..... 564
Fast and slow dough mixing (A)..... 339
Fermentation tolerance defined (A)..... 400
Frozen bread. W. H. Cathcart pt 1*68; pt 2.....*200
Limits to potato flour in bread (A)..... 400
Making bread without yeast (A)..... 296
Metering makes money. W. G. Wolf..... *6
New York World's Fair demonstrates baking bread and cake.....*608
Packaged bread in half loaves wins award..*208
Quality control. T. H. Butterworth.....*684
Quality control in food manufacturing. W. L. Campbell pt 1 *483; pt 2.....*546
Slicer, bread (e)..... *95
Staleness in bread (A)..... 39
Staling of bread slowed by soy flour (A)... 296
Standard pan lengths adopted at ABA meeting (N)..... 164
Sugar in bread (A)..... 215
Whole wheat bread (P)..... 160
Bread. See also Bakeries and Baking

BREWING:

Converting batch operation to continuous process. G. T. Reich.....*190
Malt research progresses (N)..... 517
New method of hop flavoring (P)..... 39
Removal of bitter sediment from beer in closed fermenter (P)..... 358
Ripeness of hops for brewing (A)..... 295
Shorter moisture determination for malt (A) 582
Three ways for brewers to avoid stream pollution (A)..... 215
Treason? (ed)..... 428
Brewing. See also Beer

BUTTER:

Churning cold storage cream (P)..... 534
How to obtain the right food color. B. I. Masurovsky *13
How to measure consistency of butter (A). 92
Keeping qualities of sour cream salted butter (A) 177
Mold counts in butter (A)..... 475
Preserving cream or butter (P)..... 237
Preventing moldy butter by treating wrappers (A)..... 511
Quick test for size of water droplets in butter (A)..... 216
Refrigeration requirement of cold storage butter (A)..... 401
Surplus butter bought by Dairy Products Marketing Assn. (N)..... 514
Vitamin butter color (P)..... 177
Wrapped butter deterioration (A)..... 711

C

Cabinet for frozen foods (e).....*411
Calcium for canned tomatoes (ed)..... 246

CANNING AND PRESERVING:

American Can Co. exhibits the services it is providing to improve public relations for the canning industry.....*157
Baby food now made in chopped form, too..*272
Baby foods market explored..... *83
Bacteria in very old cans of food (A)..... 92
Blue crab canning (A)..... 564
Blue crab canning developed by a food technologist *635
Can temperature tester (e)..... 351
Candying high acid fruits (A)..... 92
Certified color label ruling (N)..... 340
Chemical analysis of ancient canned foods (A) 177
Choosing sweetening agents in food manufacture. R. S. McBride..... 614
Coal tar colors certified (N)..... 340
Concentrated fruit and vegetable products. Gerritz & St John.....*369
Condensing milk (P)..... 298
Consumer acceptance for product..... 33
Convection heating rate for cans (A)..... 277
Copper in canned tomatoes (A)..... 401
Copper in Russion canned tomatoes (A).... 639
Corn canners move to adjust production (N) 225
Corn sugar may be used without mention on label (N)..... 514
Cost to the consumer of canned pineapple has been lowered by modern production methods 273
Cracking problem in preparing maraschino cherries (A)..... 401
Crosse & Blackwell puts new labels on its soups *270
Crystalline fruit juice mixtures (P)..... 401
Discoloration and corrosion in canned cream (A) 39
Dog food is the largest single item of canned food (ed)..... 246
Evaporated milk standards issued (N)..... 514
Fixed price label.....*505
Florida canners do not agree with law requiring "Florida" on labels..... 34
Food manufacturers are in dilemma as January 1 label deadline nears (N)..... 642
Food and Drug Administration hearings (N) 342
Frozen peas standards announced (N)..... 224
Grade label race is on..... 273
Grading regulations published (N)..... 570
"Home-made" condemned by F.T.C..... 505
How to compare colors (ed)..... 367
Indiana food act conforms with federal (N) 223
Label design. Wentworth Weeks..... 126
Label regulations issued (N)..... 718
Label requirements delayed (N)..... 402
Label requirements to be observed Jan. 1, 1940 (ed)..... 427
Labeling products so that labels are always legible *504
Laboratory apparatus for opening cans (A) 39
Liquid seasoning for New England style baked beans formula..... 533
Mincemeat formula 532
Mineral losses in vegetable canning (A)... 473
Minimum quality standard for canned tomatoes (color plate) 497
N.C.A. establish fund for economic research (N) 104
Netherlands Indies to can (N)..... 516
New interpretation on correct labeling.... 223
New Jersey food law aligned with federal (N) 646
Overhead conveyors for canning..... 96
"Patefoie", canape spread canned.....*507
Pea canners get loan (N)..... 164
Pea soup with frankfurters..... *83
Peach canning standards proposed (N)..... 566
Peak supplies of poultry and eggs converted to profitable items *378
Plastics tested for food containers (A).... 216
Prepared pork and bean seasoning, New England style (concentrated) formula.... 533
Procedure for fixing standards for foods (N) 405
Product and package can help or hinder good public relations. I. C. Miller pt 1 *248; pt 2.....*333
Products packed in cans and quick frozen. J. M. Roush..... *10
Progress being made on standards for foods (N) 457
Proposed new standards for grades of tomatoes (N) 460
Protecting your legal liability under the new food law 329
Pumps solved mixing problem.....*348
Quality control. T. H. Butterworth.....*684
Regulations for enforcement of the federal food, drug and cosmetic act..... 98
Sardine code proposed (N)..... 718
Sardine cooking before canning (A)..... 511
Sardines in round cans.....*271
Sauerkraut fermentation (A)..... 216
Sauerkraut kept cold during fermentation. C. S. Pederson..... 380
Schedule of action on food standards (table) 405, 460, 517, 569, 645, 712
Seafoods, new family of.....*708
Spices and spoilage (A)..... 339
Standard can sizes announced (N)..... 404
Standard can sizes for fruits and vegetables 260
Standard can sizes submitted to industry (N) 514
Standard can sizes supplemented (N)..... 404
Standard for food being shaped by industry and government (N)..... 402
Standards issued by government (N)..... 514
Supply of canned vegetables 1921-38 (chart) 167
Tentative United States standards for grades of canned grapefruit juice (color plate).. 619
Tentative United States standards for grades of frozen lima beans (color plate).....554a
Tentative U. S. standards for grades of frozen peas (color plate)..... 381
Thermal processing of canned foods in tin containers (A) 473
Tin can in the frozen food industry.....*138
Tin corrosion and canned fruit (A)..... 297
Tomatoes increase firmness with calcium (ed) 246
Tomato juice, catsup, canned vegetable, preserves and jellies, condensed milk, evaporated milk, skim milk and cream standards issued (N) 514
Tomato puree (A)..... 39
25 foods are exempted from label regulation (N) 164
Underwood canned soups introduced as premiums *272
Vitamin C in canned milk (P)..... 177
Water economy in cannery effected by recirculating water through floor drains. L. M. Jordan.....*492
Whey, sweetened condensed (A)..... 92
Cassava flour paste (P)..... 40

CEREALS:

Cheese flavored hominy pops.....*395
Cream of Wheat now "vitamized" and "mineralized" *272
Dehydration equipment. Francis Rosseau..*687
Dog food cereal..... *35
Frost damaged grain (A)..... 728
"Kix" introduced with the aid of a premium cream pitcher *707
Quick Method for testing grain (A)..... 40
Rapid moisture determination (A)..... 240

* Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (F) Forum. (P) Patents. (N) News.

Rice substitute made from wheat. E. Singruen *633

CHEESE:

Bel Paese type cheese (A) 640
Bel Paese type cheese formula 585
Blue cheese curing (A) 564
Crustless cheese (P) 299
Flavor of Swiss-type cheese improved by propionates (A) 475
Gas in Limburger cheese (A) 534
How to hasten ripening of cheese (P) 260
How to obtain the right food color. B. I. Masurovsky *13
Kraft-Phenix has new building in Chicago (N) 716
Little cheeses to declare net weight (N) ... 224
New York World's Fair demonstrates cheese packaging *611
Non-hygroscopic whey powder (P) 474
Packaged cheese developments (ed) 542
Protecting foil cheese wrappers (A) 418
Quality control. T. H. Butterworth *684
Quality control in making swiss cheese (A) 298
Quick aging blue veined cheese (P) 177
Sliced cheese in packages *396
2 lb packages of cheese for convenience *395
Temperature for curing cheese (ed) 428
Vitamin A potency of cheese measured (N) 103
Whey powder (P) 474
Whey, sweetened and condensed for food (A) 92
Chemical Industries exposition reviewed 669

CHOCOLATE:

Clearing up misconceptions about chocolate viscosities Leo Freundlich (charts) 612
Fudge cake icing powdered ready to mix ... *451
Gold foil covered chocolate disks *158
Malted milk centers, chocolate coated *395
Malted milk, chocolate flavored, prepared with raw sugar *35
Refining speeded up (P) 360
Substitute for chocolate made from nuts (P) 511
Sirup flavored with chocolate formula 641
Churn, No-roll (e) *351
Clams, washing vs soaking (A) 658

CLEANING AND SANITATION:

Caraway seeds cleaned by centrifuge (N) .. 518
Cleaning farm cream separators (A) 640
English bottle washing (A) 400
Hand washing equipment (e) 527
Ice cream sanitation improvements (A) 418
Keep your washers in order (ed) 366
Keeping food trucks clean inside Gifford, Barber, Lipman, Chittenden, Faulkner ... *159
Lead spray removed from apples (A) 456
Metal cleaning pad (e) *351
Mustard manufacturer avoids dusts in grinding. C. B. Donovan 41
Removing bacteria from dishes (A) 421
Spray residues removed (P) 729
Trailers simplify waste disposal 217
Trucks kept sanitary. Scheerer, Janssen, Porter, Leadbeater, Thies, Sinclair *90
Trucks made attractive to aid public relations *88
Ways to wash bottles clean at low cost. Arnold & Levine 235
Wetter water aids plant cleaning (A) 710
What to do to prevent spoilage by contamination. J. E. Hanache *198
Coating, corrosion resistant (e) 43
Coconuts—dehydration equipment. Francis Rosseau *687
Coconut paste grinding (P) 363

COFFEE:

Chemistry of coffee (A) 298
Coffee extract (P) 91
Counter coffee grinder (e) *412
Green coffee beg ruling (N) 340
Keeping qualities of coffee substitutes (A) 239
New York World's Fair, Brazilian building, serves fine coffee 706
New York World's Fair demonstrates coffee processing *611
Oil from coffee grounds without drying (A) 91
Package for coffee beans wins award *209
Packaging powdery foods by compressions (P) 456
Quality control in food manufacturing. W. L. Campbell ..... pt 1 *483; pt 2 *546
Ready to drink coffee *451
Sparkoffee Jr. *451
World's largest coffee plant at Hoboken, N. J. (N) *643
Colloids, soluble, in food liquids (A) 91

COLORING:

Color in food. B. I. Masurovsky *13
Coal-tar colors certified (N) 340
Four food colors in one package *210
Quality control. L. H. Butterworth *684
Regulations for enforcement of the federal food, drug and cosmetic act 98
Solubility chart for certified food colors formula 565
Vitamin butter color (P) 177
Compressor for refrigeration (e) *524

CONFECTIONERY:

Bacteria in candy and jam (A) 639
Banana confection (P) 401
Birch bark container for candy *158
Butterscotch sauce formula 712
Canadamint display box *210
Candy for the dog 396
Candying high acid fruits (A) 92
Cast caramel formula 641
Certified color label ruling (N) 340
Chewing gum ingredients (N) 340
Choosing sweetening agents in food manufacture. R. S. McBride 614
Chocolate viscosities. Leo Freundlich (charts) 612
Dehydration equipment. Francis Rosseau .. *687
Dextrose confectionery creams (P) 360
Gelatine with increased whipping quality for marshmallows (P) 535
Gold brick in miniature *507
How to obtain the right food color. B. I. Masurovsky *13
Malted milk centers, chocolate coated *395
Maple walnuts (imitation maple) formula ... 730
Sales of candy increase (N) 646
Stock fondant formula 712
Synthetic "cream" for confectionery (P) ... 419
Tenderlite marshmallow formula 641

CONSUMPTION OF FOODS:

American food producers can supply all consumer needs. E. G. Montgomery (charts) 187
Changes in food supply necessary to feed U. S. in time of war (table) 541
Flour consumption figures show trend to bakeries. E. G. Montgomery (charts & tables) 266
"Food will win the war" remember? (ed) .. 427
How much do we eat? (ed) 366
Let's educate the consumer 560
No more mouths to be fed in war time but some raw materials may be scarce *311
PWA family expenses 396
Subsisting the army in war. P. P. Logan. *549
Sugar consumption. R. S. McBride (table) 615
Surpluses breed surplus (table & chart) ... 449
What a war would do to food consumption in the United States 308

CONTAINERS:

Awards for best food packages *208
Bacteriology of paper milk containers (A). 361
Bulk tin containers for frozen foods *128
Florida canned citrus fruit containers to show "Florida" 34
Folding boxes for frozen foods *130
Latex bags for freezing foods (N) 45
Latex rubber as a frozen food container .. *250
McCormick & Co. improves containers *561
Mince meat in improved package *83
Mistakes to avoid in packaging. pt 1 143; pt 2 206 pt 3 267; pt 4 330; pt 5 387; pt 6 442; pt 7 495; pt 8 562; pt 9 638
New paper milk bottle machine 560
One-piece frozen food container *86
Packages for frozen foods *127
Plum pudding mix includes premium bowl and pudding bag *272
Polymerized rubber package material in the food industry *634
Prefabricated fiber containers *129
Product and package can help or hinder good public relations. I. C. Miller. pt 1 *248; pt 2 *333
Redesigning package for better sales appeal. *336
Refrigerated unit for express delivery *34
Sausage meat packaged in bowl *35
Shipping container for the frozen food industry *140
Shipping container for perishable fruit *210
Sirup containers with special pouring spout. *709
Soup in paper cartons *271

CONTROL:

Automatic pH instruments (e) 162
Counter control unit (e) 43
Cycle controller (e) 94
Direct-set indicating controller (e) 219
Flow ratio control (e) 724
Hydraulic speed control (e) *724
Instrument reset (e) 723
Liquid level controller (e) 413
Measurement and control of flow in food processing operations *587
Speed control (e) *42

CONVEYORS:

Chain flexes four ways (e) *525
Conveyor package counter (e) *219
Overhead conveyors for canning 96
Portable case conveyor (e) 652
Wheel type gravity (e) *42

COOKING:

Concentrated fruit and vegetable products. Gerritz & St John *369
Converting batch operation to continuous process. G. T. Reich *190
Instructions for cooking included with product will assure resales 87
Preserve making speeded by gas boiler 97
Steam jacketed kettles should be safe for insurance. G. H. Tay 67

Corn: Odor of yellow corn (A) 363
Popping quality of corn not seriously affected by fumigation. Young, Cotton & Wagner *14
Corn cutter (e) 578
Crab, blue, canning developed by food technologist *635
Crabs, canning blue (A) 564
Crusher and grinder (e) 162
Cutter, rotary (e) 653

D

Dairy Equipment: .Bacteriological laboratory unit (e) *162

DAIRY PRODUCTS:

Bureau of Dairy Industry develops new outlets for dairy byproducts (N) 286
Bureau of Dairy Industry recovers valuable whey products (N) 406
Byproduct recovery of crude milk sugar and poultry feed from milk. W. E. Stringer ..... pt 1 *72; pt 2 *262
Choosing sweetening agents in food manufacture. R. S. McBride 614
Churning cold storage cream (P) 534
Consumption of dairy products in Continental U. S. 1925-34. I. C. Miller (table) 503
Cream preserved by flash pasteurizing (P). 511
Discoloration and corrosion in canned cream (A) 39
How to obtain the right food color. B. I. Masurovsky *13
National dairy drive to be made in June (N) 284
New method of preventing rancidity in dried milk and dried egg yolk. Grey & Stone 626
Preserving cream or butter (P) 237
Quality control. T. H. Butterworth *684
Schedule of action on food standards (table) 405; 460; 517; 569; 645
Wetter water aids plant cleaning (A) 710
Dairy products. See also Butter, Eggs, Milk
Dehydrated foods in war. P. P. Logan ... *549
Dehydration equipment as applied to food processing. Francis Rosseau *687
Dehydration of foods needed in case of war 318
Desserts—"Tots", long cooked tapioca and fruit juices *708
Distillation. Vegetable juice production. J. B. Rolle *75

DOG FOOD:

Cereal product for dogs *35
Delicacies for dogs in Christmas stocking .. *33
Largest single item of canned food (ed) ... 246
Doughnut machine (e) *219
Drives. Adjustable sheave (e) *43

DRYING:

Apricots in drying affected by climate (A) 421
Dryer spray wheel (e) *161
Radiant energy dryer (e) 579
Dust. Grinding mill which eliminates foreign dusts. C. B. Donovan 41
Sugar dust hazards (A) 658

Parade of Progress labels on packages of food *273

* Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (F) Forum. (P) Patents. (N) News.

Peak supplies of poultry and eggs converted to profitable items....*378
Premium cream pitcher to help introduce "Kix" *707
Product and package can help or hinder good public relations. I. C. Miller pt 1 *248; pt 2 *333
Quality control in food manufacturing. W. L. Campbell....pt 1 *483; pt 2 *546
Reciprocal agreement between Kentucky, Indiana and Tennessee 706
Refrigerated truck delivers fresh meat and backloads fresh fish.... *36
Roadside restaurants, similar to Johnson's are new markets for foods. I. C. Miller.... *80
Salt company paints trucks to promote product *398
Shifts in the South (ed).... 3
Shipping containers, refrigerated, for express delivery *34
Southeastern Chain Store Council is planning educational campaign....*157
Stamp plan extended to employed workers (N) 457
Stamp plan named for 7 more cities (N).. 718
Stamp plan for moving surplus foods. I. C. Miller *629
Stamp plan moves ahead.... 706
Stamp plan to be extended (N).... 516
Stamp plan to distribute surplus food succeeds (N) 403
Stamp relief plan extended to new areas (N) 643
State laws instigated by competitive interests push food trucks off the roads. I. C. Miller *555
State regulations steal food markets. I. C. Miller *444
State tariff walls fail eventually of their purpose. I. C. Miller....*390
Subsisting the army in war. P. P. Logan..*549
Supermarket tax illegal in New Jersty.... 212
Supermarkets to be tabulated by the Census 504
Surplus food plan for relief distribution 212; (N) 222
Surplus food purchases (N).... 518
Surplus foods named in relief stamp plan (N) 340
Surpluses breed surplus (table & chart)... 449
Swift & Co. promotes farmer-manufacturer re'ations by "producer trips". H. E. Fleming *543
Testing guarantees acceptance of a new product *271
Traveling grocery store refrigerated....*338
Vending machine delivers cold pint of milk *87
Sec. Wallace seeks to reduce food distributing costs (N).... 102
War should strengthen domestic food market 607
Warehouse costs lowered and quality of nuts bettered by air conditioning system.... *70
Ways to make motor vehicles better your public relations. Morrell, Jones....*397
Weaknesses of retail selling (ed).... 120
Weighing truck wheel loads.... *87
What would a "war load" mean to the food manufacturer? *317
"Wholesale business is coming back into its own".... 338
Women's magazines as an influence on sales 30, 84

MASTER BREWERS' ASSN.:

San Francisco convention (N).... 644

MATERIALS HANDLING:

Chemical Industries exposition reviewed.... 669
Converting batch operation to continuous process. G. T. Reich....*190
Distilling plant arranged in six parallel bottling lines for efficient packaging. W. F. Hovey *493
Elevating devices (e).... 354
How to handle viscous products.... 348
Lard manufacture and packaging. Tolman & Crapple *438
Measurement and control of flow in food processing operations *587
New York World's Fair shows food processing plants complete in operation....*608
Overhead conveyors for canning speeds up production 96
Pickle salting. W. G. Wormley pt 1 *486; pt 2 *551; pt 3 *616
Power trucks for efficiency in meat packing.*371
Products packed in cans and quick frozen. J. M. Roush....*10
Skid platform, steel (e)....*725
Walnuts shipped and packed in central warehouse *70
Materials handling see also trucks and trucking

MATERIALS OF CONSTRUCTION:

Metals suitable for wine (A).... 160
Pickle salting. W. G. Wormley pt 1 *486; pt 2 *551; pt 3 *616

MAYONNAISE:

Formula for mayonnaise.... 661
New method of preventing rancidity. Gray & Stone....*626
Measurement and control of flow in food processing operations....*587

MEAT PACKING:

Beef extract — dehydration equipment. Francis Rosseau *687
Color of meat stabilized (P).... 362
Diesel engines provide power economy for many food industry plants....*680
Electrocution of animals improves meat flavor (ed) 482
Frankfurters free of trichinae (N).... 570
Frozen foods directory....15-28
General directions for sausage manufacture formula 712
Gravy packaged *707
Hormel to give workers cut of annual profits (N) 102
Humidity control reduces shrinkage in cold storage. R. L. Pleuthner....*429
Kroger Grocery tenderizes beef by ultra-violet method (N).... 282
Lard manufacture. Tolman & Crapple....*438
Latex rubber as a frozen food container....*250
New York World's Fair demonstrates meat plant processing *609
Packages for frozen foods....*127
Packaging carcasses in cloth and paper bags solves marketing problems. P. C. Smith..*124
Pea soup with frankfurters.... *83
Peak supplies of poultry and eggs converted to profitable items....*378
Power trucks for efficiency in meat packing..*371
Quality control in food manufacturing. W. L. Campbell.... pt 1 *483; pt 2 *546
Quick cure for sausage formula.... 712
Refrigerated truck delivers fresh meat and backloads fresh fish.... *36
Resin protects hams (N).... 103
Salt content of cured ham (A).... 420
Sausages increase production by new zipper cases. Frank Wetterling *78
Sausage meat packaged in bowl.... *35
Smoking unit (e)....*279
Storage time allowable for frozen pork (A) 475
Swift & Co. promotes farmer-manufacturer relations by "producer trips". H. E. Fleming *543
Tenderizing beef method now commercially practicable (N) ....222 (N) 282
Tenderizing sausage casings with pineapple juice (N) *514
Ultra violet sterilization of meat surfaces (A) 640
Waste disposal in Germany (A).... 38
Water cooling of poultry (A).... 535
What to do to prevent spoilage by contamination. J. E. Hanache....*198

MEATS:

Frankfurter "flat hot"....*338
More meat in prospect (N).... 646
Pork beats beef on vitamin B (A).... 299
Poultry research has begun (ed).... 603
Metering makes money. W. G. Wolf.... *6

METERS: Measurement and control of flow in food processing operations.....*587
Microscope, milk plant (e)....*722

MILK:

Bacteriology of paper milk containers (A).. 361
Byproduct recovery of crude milk sugar and poultry feed from milk. W. E. Stringer pt 1 *72; pt 2 *262
Carotene deficiency and oxidized milk flavor (A) 534
Cleaning farm cream separators (A)..... 640
Cold milk filter (e)....467, 724
Condensed milk preparations (P).... 298
Dairy products restricted by local trade regulations. I. C. Miller....*500
Dextro-milk formula. Corbett & Tracy... 513
Dried skim milk sold at retail....*505
Farmer relations need more cultivation (ed) 667
Filled-milk law upheld by Supreme Court (N) 105
Irradiator for milk (e)....*469
Marketing agreements for New York City and Boston upheld by Supreme Court (N) 403
Massachusetts firm irradiates bottle hoods (N) *568
Microscope, milk plant (e)....*722
FTC finds milk monopoly in New York City (N) 716
New York World's Fair demonstrates milk pasteurizing and bottling....*611
Oxidizing flavor in milk (A).... 640
Paper milk container lowers retail price..*703
Sanitary milk bottle neck finishes and closures (A) 160
Skimmed milk for coffee in Germany (A).. 711
Slide rule aids in standardizing milk and cream. B. I. Masurovsky....*489
Supreme Court takes Chicago milk case (N) 718
Vending machine delivers cold pint of milk *87
Vitamin C in canned milk (P).... 177
Millers' National Federation convention (N) 343
Mincemeat formula 532

MIXERS:

Air-motored mixer (e).... 579
Bakery mixer (e).... 577
Batch mixer (e).... 467
"Change-tank" mixer (e)....*218
Pumps solved mixing problems....*348
Using portable mixers.... 97
Moisture determination, rapid (A).... 240
Moisture in powders determined electrically (A) 400
Motor trolley for hoist (e)....*278
Motor, adjustable speed (e)....*722
Mustard manufacturer avoids dust in grinding. C. B. Donovan.... 41

N

National Canners Assn. meeting in Chicago (N) 104
National Confectioners Assn. meeting (N).. 341
National defense see War
National Macaroni Manufacturers Assn. Chicago meeting (N).... 165
New York World's Fair see Expositions
Nitrogen needed in pure cheap form (ed)... 480
Noble, Edward J, appointed in charge of Bureau of Foreign and Domestic Commerce (N) *284
Nutritional research progress (ed).... 244

NUTS:

B-nuts (not peanuts)....*708
Chocolate substitute made from nuts (P).. 511
Cracker for nuts....*103
Maple walnuts (imitation maple) formula... 730
Shelling nuts by internal explosion.....*123
Walnuts improved by air conditioning system in warehouse.... *70
Wage-hour rulings on walnut packing (n).. 566

O

Obsolescence as a factor in income tax. L. R. Bloomenthal....*374

OILS AND FATS:

Fats from sugar (A).... 92
Great Britain requisitions lard (N)..... 645
Lard improvements? (ed).... 245
No subsidies for lard (N).... 515
Oil from coffee grounds without drying (A) 91
Oil from rice bran (A).... 640
Olive oil production low (N).... 106
Production in 1938 (N).... 225
Rancidity in fats (A).... 419
Rancidity prevention in oils and fats by ascorbic acid and related compounds as anti-oxidants. Gray & Stone....*626
Reclaiming sardine cooking oil (A)..... 511
Refining corn oil (P).... 728
Salad oil interests seek exemption in standards listing (N).... 646
Sunflower seed oils (A).... 419
Synthetic "cream" for confectionery (P)... 419
Vacuum rendering for lard and tallow (A) 299
What about lard? Tolman & Crapple.....*438
Winterizing cottonseed oil (A).... 582
Oven, reel (e).... 724
Ozone generator (e) *726

P

PACKAGING:

American Management Assn. competition (ed) 63
American Management Assn. gives rules for packaging competition (N).... 102
American Management Assn. to award for package of greatest help to consumer at point of sale.... 33
Awards for best food packages....*208
Birch bark container for candy....*158
Camera to evaluate package design by "photometric analysis" method.... 273
Changing the package is usually to increase sales appeal *394
Cheese in 2 lb. package for convenience....*395
Cheese, sliced, packaged....*396
Display carton for bullion cubes.... 506
Distilling plant arranged in six parallel bottling lines for efficient packaging. W. F. Hovey *493
Dogs food in Christmas stockings.... *33
Drug store size of packaged cereal.....*505
Frozen food competition causes trend toward packaging fruits and vegetables....*212
Frozen bread covered with moisture resisting wrapper. W. H. Cathcart pt 1 *68; pt 2 *200
Frozen food packages....*127
Garlic in cellulose bag.... 507
Gift shipping package for persimmons wins award *209
Label design. Wentworth Weeks.... 126
Latex rubber as a frozen food container....*250
Liners for packages in the frozen food industry *134
McCormick & Co. improves containers.....*561
Meat carcasses packaged in cloth and paper bags. P. C. Smith....*124
Mistakes to avoid in packaging pt 1 143; pt 2 206; pt 3 267; pt 4 330; pt 5 387; pt 6 442; pt 7 495; pt 8 562; pt 9..... 638
New packages and products..35, 83, 158, 208, 270, 336, 394, 451, 507, 561, 634, 707
New York World's Fair shows food processing plants complete in operations.....*608
One-piece frozen food container.... *86

* Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (F) Forum. (P) Patents. (N) News.

Outside carton wrap for frozen foods.....*137
Packaging by machinery in the frozen food industry 142
Packaging machine (e)..... *95
Parade of Progress labels on packages of food *273
Polymerized rubber package material in the food industry *634
Powdery foods packaged by compression (P) 456
Product and package can help or hinder good public relations. I. C. Miller pt 1 248; pt 2 *333
Protecting foil cheese wrappers (A)..... 418
Recipes and informative labels for the frozen food industry 139
Recipes to file on cereal packages.....*158
Redesigned packages *394
Redesigning package for better sales appeal.*336
Same carton use for variety of crackers....*395
Snacks in 5c. packages.....*708
Tea package improved.....*507
Zipper casing increases sausage production. Frank Wetterling *78

PACKAGING INSTITUTE:
Chicago meeting (N)..... 646
Organized (N) 222
Packaging. Packing and Shipping Conference (N) 221

PACKING:
Pickle salting. W. G. Wormley pt 1 *486; pt 2 *551; pt 3 *616
Paints, protective (e)..... 42
Paper shredder (e) 162

PASTEURIZATION:
Beer pasteurization (A)..... 564
Cream preserved by flash pasteurizing (P) 511
Flash pasteurized apple juice (A)..... 216
Grape and apple juice successfully pasteurized (A) 295
Mechanization for public health (ed)..... 63
Patents 59, 118, 182, 242, 302 364, 424, 478, 538, 586, 664, 733
Shredded Wheat decision (ed)..... 2
Peanut butter—glycerine added to product prevents separation of oil. C. W. Lenth..*678
Pest control and poison hazards (A)..... 115
Pest control—England has National Rat Week (ed) 665

PHOTOELECTRIC CELL:
Sorting rice controlled by electric eye. C. H. S. Tupholme..... 41
Photography-camera for bread and cake scoring *96

PICKLES:
Brix better than Baume for pickle finishers (A) 359
Dextrose improves pickles (A)..... 297
Dill pickles produced in the South (A)..... 359
Errors of testing salt brine (A)..... 400
Forty years of pickle salting. W. G. Wormley.....pt 1 *486; pt 2 *551; pt 3 *616
How to use lactic acid in finishing pickles. Wadsworth & Fabian pt 1 252; pt 2 *324; correction 404; 461
Influence of spices in causing spoilage of dill pickles (A) 339
Spices as preservatives? (A)..... 536
Sterilizing fish pickling brines with ultraviolet (A) 710
To speed up "processing" of salt pickles (A) 297
Ultraviolet sterilizes brine for curing fish (N) 406
Pig crop 1924–1938 (chart)..... 225
Pipe connector (e)..... *43
Pipes—measurement and control of flow in food processing operations 587

PLANT LAYOUT:
Distilling plant arranged in six parallel bottling lines for efficient packaging. W. F. Hovey *493
Plant tours will pay sales and good will. I. C. Miller *64
Plastics tested for food containers (A).... 216
Poison hazards and pest control (A)..... 115
Poisoning from bacteria on fish roe (A).... 535

POTATOES:
Brown discoloration prevention (A)..... 92
Enzymes cause blackened boiled potatoes (A) 239
Germany prepares to eat potato peelings (A) 659
Keeping quality influenced by fertilizers (A) 38
Limits of potato flour in bread (A)..... 400
Powders—dehydration equipment. Francis Rosseau *687
Powders measured electrically to determine moisture (A) 400
Powders, noncaking (P).....*659

POWER:
Cost of belt slip. W. F. Schaphorst..... 97
Cost of steam..... 348
Diesel engines provide power economy for many food industry plants.....*680
Direct-drive mills cut grinding costs in flour mill *625
Operating costs reduced in food plants by better methods in generating steam and power. C. R. Earle....pt 1 *202; pt 2 *326
Variable speed drive (e)..... 352

PRICES:
Cost of raw materials (ed)..... 541
Farmer's share of the retail prices of various foods (table) 343
Prices move up (ed)..... 540
Trend of prices.....48, 105, 167, 226, 287, 345, 407, 461, 519, 571, 647. 719
Prune juice from dried prunes. W. C. Hoffman *432
Public ownership has its sorrows (ed)..... 481

PUBLIC RELATIONS:
AGMA starts program of public relations (N) 102
American food producers can supply all consumer needs. E. G. Montgomery (charts) 187
Better public relations must be based on all the facts. C. S. Ching..... 4
Can company exhibits the services it is providing to improve public relations for the canning industry.....*157
Elementary public relations matters (ed)... 481
Give a man more than a number. Ralph Raymond 499
Food manufacturers must act to wipe out trade barriers. I. C. Miller.....*631
How motor vehicles are being used to improve public relations. Gray, Theis..... 214
How to employ trucks for betterment of public relations. Greaney, Crooks.....*276
Illegal sit downs and public relations policies (ed) 185
Keep eternally at public relations work (ed) 245
Milk industry restricted by local trade regulations. I. C. Miller.....*500
Plant tours will pay in sales and good will. I. C. Miller..... *64
Preventive public relations (ed)..... 63
Product and package can help or hinder good public relations. I. C. Miller pt 1 *248; .....pt. 2 *333
Public relations begin at home (ed)..... 304
State laws instigated by competitive interests push food trucks off the roads. I. C. Miller *555
State regulations steal food markets. I. C. Miller *444
State tariff walls fail eventually of their purpose, I. C. Miller.....*390
Swift & Co. promotes farmer-manufacturer relations by "producer trips". H. E. Fleming *543
Swift prepares financial report for employees (N) 166
Trucks made attractive to aid public relations *88
Trucks reflect on business. Sinclair, Lewis, Bates, Schumaker..... 453
Ways to make motor vehicles better your public relations. Mottell, Jone.....*397
What about that deadline at forty? E. L. Cady 122
Pudding, plum mix *272
Pulley, magnetic (e) 95
Pulverizer, small (e).....*722

PUMPS:
Pump, Centrifugal (e).....*219
Centrifugal milk pump (e)..... 524
Deep well (e).....*654
Glass pumps for food products (e).....*524
Measurement and control of flow in food processing operations.....*587
Sanitary food (e)..... 413
Water (e)..... 411

Q

QUALITY CONTROL:
Converting batch operation to continuous process makes better cranberry jelly. G. T. Reich.....*190
Malt manufacturer uses laboratory to assure quality. L. E. Ehrnst..... *76
Quality control in food manufacturing. W. L. Campbell.....pt 1 *483; pt 2 *546
Quality control is a science. T. H. Butterworth *684
Vegetable juice manufacturer succeeds with new line through quality control. J. B. Rolle *75

QUICK FREEZING:
Birds Eye to expand (N)..... 404
Diesel engines provide power economy for many food industries plants..... ...*680
Frozen food compartment in domestic refrigerator *211
Frozen foods directory.....15–28
Latex rubber as a frozen food container....*250
Liners for packages in the frozen food industry *134
Liquid CO_2 for quick freezing (P)..... 160
One-piece frozen food container..... *86
Packaging tempo set by frozen foods..... 212
Packages for frozen foods.....*127
Packaging by machinery in the frozen food industry 142
Products packed in cans and quick-frozen. J. M. Roush..... *10
Standards for frozen peas announced (N).. 224
Tentative United States standards for grades of frozen lima beans (color plate).....554A
Tentative U. S. standards for grades of frozen peas (color plate)..... 381

R

REFRIGERATION:
A.S.R.E. meeting (N)..... 285
Air conditioning refrigeration machine (e). 713
Analyzing conditions affecting capacity in ice cream freezing. A. W. Farrell (charts) 196
Articular refrigerating system for trucks...*454
Baking profits will improve with refrigeration. W. E. Broeg.....pt 1 *385; pt 2 *434
Commercial refrigeration unit (e)..... 161
Cooperative research on CO_2 storage (ed).. 367
Dry ice refrigerator car.....*705
Fish freezing economizes with diesel power*680
Food freezers for the home..... 86
Frozen bread. W. H. Cathcart pt 1 *68; .....pt 2 *200
Frozen food compartment in domestic refrigerator *211
Frozen foods directory.....15–28
German views of fish freezing (A)..... 728
Humidity control reduces shrinkage in cold storage. R. L. Pleuthner.....*429
Icing machine (e).....*355
Latex bags for freezing food (N)..... 45
Locker plant freezing unit (e)..... 713
Locker plants. I. V. Miller..... 32
Locker plants in Illinois..... 635
Locker systems in the U. S..... 211
More controlled temperatures needed (ed).. 542
Packages for frozen foods.....*127
Products packed in cans and quick frozen. J. M. Roush..... *10
Proper storage temperature for vegetables (A) 536
Refrigeration unit of small size (e)..... 727
Shipping containers, refrigerated, for express delivery *34
Standard truck adapted for frozen food delivery *322
Tentative United States standards for grades of frozen lima beans (color plate).....554A
Tentative U. S. standards for grades of frozen peas (color plate)..... 381
What would a "war load" mean to the food manufacturer 317

RESEARCH:
Canners establish fund for economic research (N) 104
Food technologist is necessary (ed)..... 245
Malt manufacturer uses laboratory to assure quality. L. E. Ehrnst..... *76
Northern Regional Laboratory cornerstone is laid (N)..... 646
Poultry research has begun (ed)..... 603
Regional Laboratories to study foods (ed).. 428
U. S. Department of Agriculture planning four new Regional Research Laboratories.*264
What to do with a food technologist (ed).. 246
Resin protects hams (N)..... 103

RICE:
Composition of rice germ (A)..... 177
Dehydration equipment. Francis Rosseau.*687
Electric eye for sorting rice. C. H. S. Tupholme 41
Oil from rice bran (A)..... 640
Rice substitute made from wheat. E. Singruen *633
Wild rice composition (A)..... 640
Roll divider and rounder (e).....*161
Roof-truss construction without columns for support in distilling plant. W. F. Hovey *493
Rubber, polymerized, for packaging.....*634
Rust remover 537

S

Salt—Noncaking powders (P)..... 659
Salt company paints trucks to promote product *398
Sampler, proportional (e) 278

SAUERKRAUT:
Carbon dioxide for fermenting sauerkraut (ed) 183
Causes of pink sauerkraut (A)..... 216
Keep fermenting kraut cold. C. S. Pederson 380
Scale, food and meat (e).....*722
Scale for packaging (e)..... 278
Screen for waste (e) 654
Screen, vibrating (e) 218
Sealer, shipping container (e)..... 469
Selenium compounds absorbed by plants (A) 583
Separator, magnetic (e).....279, 713
Sheave, adjustable (e) *43

* Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (F) Forum. (P) Patents. (N) News.

Shipping
Mistakes to avoid in packaging pt 1 143; pt 2 206; pt 3 267; pt 4 330; pt 5 387; pt 6 442; pt 7 495; pt 8 562; pt 9 638

SIRUPS AND MOLASSES:

Black currant sirup in storage (A)..... 511
Bone char refining sugar methods. Whitman Rice.....*376
Chocolate flavored sirup formula..... 641
Choosing sweetening agents in food manufacture. R. S. McBride..... 614
Crushed pineapple or pineapple topping formula..... 660
Fermenting lactic acid from sugars (A)... 361
How to get lead out of maple sirup (A)... 277
How to handle viscous products..... 348
Metering makes money. W. G. Wolf..... *6
New containers for sirup with special pouring spout.....*709
No lead in maple sirup (N)..... 515
Pineapple sirup formula..... 661
Spontaneous combustion of molasses (A)... 582
Train-load commodity rates proposed on molasses (N)..... 405
Skid platform (e) *218; *219
Skid platform, steel (e).....*725
Slide comparator for use in determination of pH..... 278
Slide rule aids in standardizing milk and cream. B. I. Masurovsky.....*489
Smoke indication important..... 217
Smoked fish spoilage (A)..... 237
Smoked oysters, canned, formula. P. A. Sunderland..... 565
Smoking fish improved by air conditioning..*490
Smoking unit (e) *279
Sorting rice with electric eye. C. H. S. Tupholme..... 41

SOY BEANS:

Oil coated before heat treatment (P)..... 40
Production of soy beans in 1938 (N)..... 105
Protein extract from soy beans (A)..... 421
Staling of bread slowed by soy flour (A).. 296
Speed control, hydraulic (e).....*724
Speed reducer (e) *162

Spices: Influence of spices in causing spoilage of dill pickles (A)..... 339
Stacker, telescopic (e) 279

STANDARDS:

Beverage bottle labeling ruled on by Food Act (N)..... 340
Butter standards effective Apr. 1 (N)..... 47
Can sizes submitted to industry (N)..... 514
Canned peach standards proposed (N)..... 566
Canners announce more standard can sizes (N) 404
Canners standardize fruit and vegetable cans 260
Certified color label ruling (N)..... 340
Chewing gum ingredients (N)..... 340
Coal tar colors certified (N)..... 340
Corn sugar may be used without mention on label (N)..... 514
Dextrose as sugar in foods (ed)..... 603
F&DA makes progress on new food standards (N)..... 282
FTC authority challenged by Fresh Grown Preserve (N)..... 285
Fixed price label.....*505
Florida canners do not agree with law requiring "Florida" on labels..... 34
Food and Drug Administration hearings (N) 342
Food manufacturers are in dilemma as January 1 label deadline nears (N)..... 642
Food standard hearings to go on for years (ed) 120
Food standards being shaped by industry and government (N) 402
Frozen peas standards announced (N)..... 224
Grade label race is on..... 273
Green coffee bag ruling (N)..... 340
Hearings on food standards continue (N)... 645
Hearings on food standards law (ed).....*305
Hearings should be attended (ed)..... 425
"Home-made" condemned by F.T.C..... 505
How to compare colors (ed)..... 367
Ice cream definitions proposed at hearing (N) 717
Ice cream exempted in Food Act (N)..... 340
Indiana food act conforms with federal (N) 223
Label design. Wentworth Weeks..... 126
Label provisions postponed (ed)..... 368
Label regulations issued (N)..... 718
Label requirements delayed (N)..... 402
Label requirements to be observed Jan. 1, 1940 (ed)..... 427
Labeling status of dextrose and sucrose as ingredients (ed)..... 482
Milk industry restricted by local trade regulations. I. C. Miller.....*500
Minimum quality standard for canned tomatoes (color plate)..... 497
Movement toward standardization of fruit juices all over the world (A)..... 728
New interpretation on correct labeling..... 223
New Jersey food law aligned with federal (N) 646
Over-supplies of labels (ed)..... 428
Preserve standards discussed by Dept. of Agriculture (N)..... 566
Procedure for fixing standards for foods (N) 405
Progress being made on standards for foods (N) 457
Proposed new standards for grades of tomatoes (N)..... 460
Protecting your legal liability under the new food law..... 329
Regulations for enforcement of the federal food, drug and cosmetic act..... 98
Salad oil interests seek exemption (N)..... 646
Sardine code proposed (N)..... 718
Schedule of action on food standards (table) 405, 460, 517, 569, 645, 712
Slide rule aids in standardizing milk and cream. B. I. Masurovsky.....*489
State regulations steal food markets. I. C. Miller *444
State tariff walls fail eventually of their purpose. I. C. Miller.....*390
Sugar battle during hearing on standards (ed) 606
Suggestion that canned fruit labels should state whether sugar is beet or cane (ed). 668
Technical progress likely to be impeded by the new Food, Drug and Cosmetic Law (ed) 481
Technologists needed for new food law (ed) 605
Tentative United States standards for grades of canned grapefruit juice (color plate).. 619
Tentative United States standards for grades of frozen lima beans (color plate).....554A
Tentative U. S. standards for grades of frozen peas (color plate)..... 381
Tomato juice, catsup, canned vegetables, preserves, and jellies, condensed milk, evaporated milk, skim milk and cream standards issued (N)..... 514
25 foods are exempted from label regulation (N) 164
What's in a name..... 33
Work on food standards continues in Washington (N)..... 164

STARCH

Dehydration equipment. Francis Rosseau..*687
Emulsifying agent from starch factory wastes (P) 361
Sugar from starch (P)..... 583

STATISTICS:

American food producers can supply all consumer needs. E. G. Montgomery (charts) 187
Farmer's share of the retail prices of various foods (table)..... 343
Flour consumption figures show trend to bakeries. E. G. Montgomery (charts)..... 266
Surpluses breed surplus (table & chart).... 449
What a war would do to food consumption in the U. S. (tables)..... 308

STEAM

Costs of steam..... 348
Operating costs reduced in food plants by better methods in generating steam and power. C. R. Earle....pt 1 *202; pt 2 *326
Small steam generator (e)..... 727
Steam jet ejector (t)..... 42

STERILIZATION:

Chlorine sterilization (A)..... 510
How to sterilize flour (A)..... 91
Meaning of sterilization (ed)..... 246
Ultra violet sterilization of meat surfaces (A) 640
Vegetable juice manufacture. J. B. Rolle.. *75
Water sterilization for beverages (A)..... 472
